Dr. Lawrence (Larry) Gaum is an oral surgeon who maintains a private practice in Toronto, Ontario, Canada. He is a graduate of Dalhousie University Dental School in Nova Scotia. He practiced general dentistry for five years before taking his specialty training in Anesthesia and Oral Surgery at the University of Pittsburgh and Wilmington Medical Centre. He is a former Associate in Dentistry, Faculty Of Dentistry, University Of Toronto where he taught for over 20 years. He has lectured extensively throughout Canada, United States and other countries, teaching his fellow colleagues oral surgery, anesthesia and pharmacology. Dr. Gaum is the author of numerous articles on Oral Surgery and Anesthesia published in major dental and medical journals. He has published a text book titled: "Oral Surgery For The General Dentist.", now in its 2nd edition, and produced a DVD titled: "Surgical Videos For The General Dentist." Dr. Gaum is the principal developer of the "ART" Mandibular Block, used successfully by thousands of dentists around the world. Dr. Gaum is a member of several dental associations in Canada, United States and Europe. He is a staff member of St. Michael's Hospital in Toronto and is the Director of Global Professional Seminars.

This course is designed for the general practitioner who wishes to perform his/her own surgery and who rarely refers cases to the specialist.

It is important to emphasize that this seminar DOES NOT present major Maxillofacial surgery such as osteotomies, fractures, condylectomies, rhinoplasties, etc. that are of no practical or clinical value to the GP. The surgical procedures that will be taught are the "Bread and Butter" variety, allowing the participant to refine and update all surgical skills.
