Emergency Medicine: 10-Minute to Save a Life

Dr. Stanley Malamed

Life - threatening emergencies can occur anytime, anywhere and to anyone. Such situations are somewhat more likely to occur within the confines of the dental office due to the increased level of stress that is so often present. In this course Dr. Malamed will discuss the areas which are considered vital to a proper understanding of emergency medicine: prevention, preparation, and recognition and management. The first session will include a discussion of preparation involving the office and staff and includes a thorough review of the office emergency kit (drugs and equipment). The second session will include the recognition and management of specific emergency situations follows and includes the management of unconsciousness, respiratory distress, seizures, drug-- related emergencies and chest pain, including cardiac arrest and use of the AED. This course is designed for all members of the dental office staff, not just the doctor and chairside personnel. Situations discussed here can happen outside of the dental environment as well as in the office. Everyone should be prepared!

Outline:

Session 1:

- Prevention of medical emergencies
- Preparation for medical emergencies:
- Office staff
- Emergency drugs and equipment
- Recognition and management
- General principles

Session 2:

- Recognition and management
- Altered consciousness
- Hypoglycemia Seizures Unconsciousness
- Respiratory distress Drug-- related emergencies:
- Allergy
- Chest pain, cardiac arrest and AED

The Dental Wellness group is looking for Part Time and Full Time Dental Associates. We are located in South Calgary. Our clinics are very busy and have top quality team members from Assistants to hygienists and administrators. This makes for a very successful and profitable associate position. Our collections are over 95% . Experience is an asset however if you are a new grad we welcome your applications as well. We look forward to meeting you. Please forward resumes to: dwgmanagement@gmail.com

We have a unique opportunity to replace a F/T associate position in the affluent community of West Springs.

We are looking for an associate who is seeking a practice with an existing patient base and a healthy new patient flow. The practice is a technologically-advanced, patient care-focused environment and offers mentorship & camaraderie among fellow practitioners. The ideal candidate is a person who places a strong focus on building patient rapport and has a diverse scope of practice. If you are interested in being a part of a driven and passionate team for long-term success and growth, forward your CV in confidence to jeff@wentworthfamilydental.com

Providing Calgarian dental practices with the right employees, with the right skills, at the right times.

Make a difference in your community as a clinical instructor at SAIT! The SAIT Dental Assisting Program requires a Dentist to help facilitate patient treatment clinics from January to April 2015. This position is two days per week.

This position is one day a week on a Tuesday's January – April 2016

Responsibilities include:

- Provide instruction to dental assisting students related to X-rays and preventive procedures such as rubber cup polish, intra oral observation, patient education, fluoride and desensitization.
- Adhere to applicable accreditation standards and the school's policies and procedures.
- Assist with on-going review and development of curricula.
- Attend orientation and faculty meetings.

If you are interested in this exciting opportunity, please contact Carmen Sheridan, Academic Chair, SAIT Dental Assisting program (403) 284-7108 or email carmen.sheridan@sait.ca

ORAL AND SYSTEMIC HEALTH, “THE BIGGER PICTURE” Dr Bob Walker and Dr Kaye McArthur November 13 and 14 2015 at Patterson Dental

This information packed 2-day course will explore the intimate relationships between skull shape and symmetry, occlusion, arch form, posture, mechanics, airway, headache, Migraine, genetics/epigenetics, nutrition and tolerance.

The course will explore what challenges these issues may create in blocking your success, how you can identify problems before they happen, and what you can do to remedy or mitigate these situations.

This is invaluable in moving your patients to greater health, wellbeing and satisfaction.. You will also learn to catch many treatment challenges and failures before you even start treatment.

Presented by Calgary Gnathological Society, please contact Dr Gord McLaughlin 403 252-7608 Bus, 403 255-0438 Fax, docmcl@me.com
