## PRACTICE SCORECARD:

MEASURE UP IN THE "NEW NORMAL"

with **Lisa Philp, RDH** (Transitions Group North America)

**Friday  
November 25th  
2016**

9am to 1pm

**Henry Schein**

138-4303 26 Street NE  
Calgary, AB

The "new normal" has been driven by the changing landscape of dentistry: economic downturn, the increased number of dental providers, existing practitioners working longer, corporatization, public sophistication and urban centre saturation.

Now is not the time to be complacent, because the way we built practices in the past will not necessarily work today. It is essential for a practice to assess their operation using key metrics to measure against tried and true benchmarks of success.

Awareness is the first step.

This program will guide you through the areas to measure, including the health of the team, patient and business. You will be armed with the knowledge you need to create a plan that ensures the future is better and growth is happening.
