Dr. Lawrence Gaalaas
CBCT & 2D Imaging Case Review

This review of Cone Beam CT and 2D digital imaging in dentistry course will be an overview of contemporary dental radiographic imaging approaches both 2D and 3D.

We will discuss some common manipulations/filters, enhancements, and pitfalls associated with digital 2D dental radiography in a manner you can directly apply in your practice. We will also discuss the basics of Cone Beam CT for any dental professional with the aims of:

Understanding the machine and “what buttons to push,”
Comprehending the logic of viewer software and interpretation approaches regardless of software brand
Learning some interpretation strategies
Reviewing some example cases of both common and interesting findings

DENTAL ASSOCIATE – CALGARY S.W. BRAESIDE DENTAL CENTRE - FULL TIME

Braeside Dental Centre has an amazing opportunity for an experienced associate. We are seeking a long-term associate to take over an existing patient base, which is your opportunity to build a practice within the practice. We are a well-established practice with well-equipped operatories. We have a solid new patient flow and we have a pleasant clean positive space to deliver excellent care for all patients that visit our practice.

Our team is professionally managed with solid systems in place to ensure day-to-day flow is maintained.

Our team is a group of individuals who work together to make each other succeed and to deliver an outstanding patient experience.

We offer competitive percentage and encourage development of skills and growth through CE. The office hours are excellent, so our team feels extremely fortunate to have an owner that believes in life work balance. The shifts are daytime hours Monday to Friday, and Monday to Thursday the alternate week. There are no late evenings or weekends.

If this is a role you would like to learn more about, please forward your resume in confidence to our practice consultant at osiconsulting@shaw.ca Please use the header SW Calgary Dental Associate in your email. The CV will then be forwarded on to the owner of the practice. We will be pleased to receive your CV and to answer any further questions you may have.

Calgary Multidisciplinary Dental Society

The CMDS is looking for new members! ■ ■ ■

As a dental society, our hope is to create community and connections, as well as promote ethical and professional excellence with our members. CMDS members work together to develop our skills in clinical dentistry, business management, and behavioral sciences. Our society values a safe and constructive environment to provide our members support and growth. Given that learning and education is important to our group, our courses are typically highly interactive and a balance of didactic, experiential, or hands-on training.

CMDS members typically meet 4 times per year. The next two courses that are currently scheduled for 2021 (but may be altered due to Covid-19) will be led by Dr. Gary DeWood and Dr. Lee Ann Brady. When selecting a course method and topic, we orient our decisions towards interests of our members. By keeping the numbers small, we can develop our skills in a manner that consists of highly individualized learning.
